Kick for Non-Profit

Is outdated financial management slowing down your mission?

Our comprehensive solution **Kick for Non-Profit** is designed to help you focus on your mission. Our additional functionality allows you to achieve greater transparency and compliance, whilst minimising non-core workloads.

Key Features:

Commitment Accounting

Track and manage your non profit's financial obligations, including future expenses and contracts, and accurately forecast your budget and ensure that funds are allocated to the appropriate projects and initiatives.

Requisition to Receipt (R2R)

Kick Requisitions enables remote users to raise purchase requisitions, which can be approved based on flexible organisational groups such as departments, divisions, or projects. Once approved, purchase orders and commitments can be created.

Enhanced Budgets

Create detailed budgets for different programs, projects, or departments, and monitor expenses against budgeted amounts in real-time.

Seamless Integration

- ☐ Are your systems fully integrated with Microsoft tools like Office 365, Power Platform, and Azure to maximise productivity and collaboration?

Cloud-Based

- ☐ Can your team securely access financial data and collaborate from anywhere, at any time, using a cloud-based solution?

Insightful Analytics

- ☐ Do you have access to built-in analytics and reporting tools that help you monitor KPIs and make data-driven decisions?

If you couldn't tick any of these boxes, it's time for an upgrade.
