

Kick

Co-Managed IT Services

Empowering Your IT Team with Expert Support

At Kick, we understand that IT teams are under increasing pressure to deliver more with less. Our Co-Managed IT Services are designed to give you the best of both worlds: internal control with external expertise.

Whether you're dealing with resource constraints, cybersecurity challenges, or strategic projects, we're here to work alongside your team to fill the gaps and strengthen your IT operations.

Why choose Co-Managed IT?

- / Shared responsibility** – Retain control of your IT environment while benefiting from Kick's expert support
- / Flexible support** – Access the help you need, when you need it, across strategy, security, and operations
- / Bridge skill gaps** – Gain specialist knowledge in areas like cloud, cyber security, and compliance
- / Relieve internal pressure** – Free up your internal team to focus on strategic priorities

Our Co-Managed Services include:

- / Consultancy as a Service** – On-demand strategic advice and project support
- / Backup as a Service** – Scalable, secure cloud-based backup solutions
- / Managed Firewall** – Fortinet-powered perimeter security and threat detection
- / Managed Patching & Monitoring** – Keep systems updated and issues identified early
- / Managed DMARC/DKIM** – Protect your domain from spoofing and phishing
- / Cyber Essentials as a Service** – Achieve and maintain compliance with guided support
- / Azure Consultancy** – Help with cloud planning, migration and cost optimisation
- / KickSecure** – Our dedicated security team for ongoing protection and monitoring

A Trusted Partner, Not a Replacement

We don't replace your IT team - we enhance it. Our co-managed approach ensures you stay in control, while we provide the expertise and capacity to keep things running smoothly.

Ready to strengthen your IT Team? Speak to our team today about how Co-Managed IT could work for your business.
