

NOVEMBER 2021

JOB ADVERT

DYNAMICS PROJECT MANAGER

KICK ICT GROUP

Kick ICT Group was established in 2015 by CEO Tom O'Hara, Group Sales Director Alan Turnbull and Strategic Initiatives Director David Chazan. We are IT experts and partners. We provide business applications, network infrastructure and communications solutions, services and support to customers throughout the UK.

We have ambitious plans for the future. Our vision is to build a sustainable single-source IT services business of scale, with a talented and highly skilled team who provide outstanding service and add value to our customers

To support our growth strategy, in 2019 we acquired and refurbished a 20,000 sq. ft headquarters building in Strathclyde Business Park. We currently employ 120 staff and expect staff numbers to increase to more than 150 by the end of the year.

THE ROLE

BASE LOCATION: Bellshill

SALARY: Depending on skills and experience

WORKING PATTERN: Permanent | Full-time (35 hours per week)

Kick ICT Group currently have an opportunity for a Dynamics Project Manager to join the team. As a Dynamics Project Manager you will play an important role in the continued success of our business, managing the successful delivery of our projects now and in the future.

You will be responsible for managing the successful deliverables of Microsoft Dynamics projects and provide solutions that support both business operation improvements, product and service delivery.

This is an exciting role at a time when our business and services are in high demand, the right candidate has an excellent opportunity to truly make their mark!

The key responsibilities in this role are:

- Leading the successful delivery of MS Dynamics projects in a matrix management environment.
- Facilitate the definition of project scopes and deliverables.
- Develop and present full project plans.
- Engage all stakeholder groups to create project teams responsible for the development, testing and operational handover of business support systems.
- Plan and coordinate project team resources, ensuring the correct skills and schedules are in place.
- Manage internal and external resources ensuring clear objectives and timelines are understood and achieved.
- Lead and support team members to ensure they understand their roles, responsibilities, and deliverables within the plan.
- Drive collaboration and teamwork to co-ordinate project tasks
- Carry out effective and proactive risk, issue & change management.
- Provide accurate and timely status reporting.
- Work as part of a wider team to collaboratively develop and continuously improve standard project governance process procedures along with ongoing compliance.

WHAT DO I NEED?

- Knowledge in MS Dynamics project life cycles
- Experience in project delivery using methodologies & best practice.
- Experience working with outsourced and internal delivery teams.
- Excellent communication skills both verbal and written.
- Outstanding organisational skills with attention to details
- Strong interpersonal skills with the ability and desire to build long lasting relationships.
- An ability to work under pressure against short timescales.
- Aptitude in decision-making and problem-solving

BENEFITS

- Competitive salary
- 30 days annual leave (plus a birthday holiday)
- Additional Service Days
- Group personal pension plan
- Private medical insurance scheme
- Hybrid Working
- Life cover (2 x final salary)
- Cycle to work scheme
