

Kick for Non-Profit

Modern cloud ERP built for charities and membership organisations

Kick for Non-Profit is a cloud-based ERP solution designed specifically for charities and membership organisations. Built on Microsoft Dynamics 365 Business Central, it brings together finance, donor and grant management, compliance, and reporting into one powerful, easy-to-use platform. Whether you're managing day-to-day operations or preparing for long-term growth, Kick for Non-Profit helps your team work smarter, stay compliant, and focus more time on delivering impact.

Why Your Organisation Needs Kick for Non-Profit:

Nonprofit teams often struggle with fragmented systems, disconnected data, and manual reporting – all of which slow down operations and obscure the true impact of your work.

Kick for Not-for-Profit enables charities and membership bodies to:

- / Unify data across departments-** for a single source of truth across finance, programmes, fundraising, and operations.
- / Simplify audits and grant reporting** - with automated workflows, approval tracking, and audit trails.
- / Improve donor and member engagement-** by managing relationships, giving history, and communications in one place.
- / Scale confidently** - the cloud-based platform grows with your organisation, no matter your size or complexity.

Transformational ERP for Nonprofits

/ All-in-one ERP: Manage finance, operations, donors, memberships, projects, and reporting in a single cloud-based solution built on Microsoft Dynamics 365 Business Central.

/ Purpose-built for non-profits: Kick for Not-for-Profit includes enhancements designed specifically for the charity and membership sector, including fund tracking, donor visibility, and grant reporting.

/ Advanced budgeting & forecasting: Create and manage detailed budgets across programmes and cost centres, with real-time insights and variance tracking.

/ Partial VAT & VAT shelter support: Automate complex VAT calculations and compliance with dedicated tools developed for the nonprofit sector.

/ Real-time reporting: Access dashboards, KPIs, and financial summaries on demand – empowering confident decisions and transparent reporting to boards and funders.

/ Cloud-ready, fully secure: Hosted in Microsoft's trusted cloud platform with world-class security, role-based access control, and regular compliance updates.

/ Microsoft 365 integration: Seamlessly connect with familiar tools including Excel, Outlook, Word, and Teams – making adoption simple for all users.
